DENNIS

C O R P O R A T I O N

Mr. Gene Haskins past experience includes CE&I and senior construction management duties on educational, health care, technical, heavy highway bridges/ marine, historic renovations, institutional, office, church, and retail projects. These projects ranged between \$5 million and \$70 million in total value at completion.

Mr. Gene Haskins serves as Dennis Corporations CE&I Manager. He has over 38 years of engineering and construction management experience. His past project experience includes overseeing phase planning, complete preconstruction services, project evaluation, construction management and development of conceptual designs, contract negotiation and development, and final estimate review and approval. Projects involving similar responsibilities include:

Ashford Street Pedestrian Improvements; Chester County, S.C.: Mr. Haskins provided construction management services for this project after Chester County determined that the street required safety improvements. Mr. Haskins conducted permitting, construction administration, cost estimates, CE&I and bidding services for this project.

Varnville Streetscape and Intersection Improvements; Varnville, S.C.: Dennis Corporation was tasked with improving a dangerous intersection at US 278 and SC 63. Mr. Haskins provided the construction management services needed for this project which required roadway improvements, environmental permitting, cost estimating, and public transportation services.

Indian Hut Ph 1 & Amos Road; Georgetown County, S.C.: Mr. Haskins acted as the construction manager for this project, and oversaw all CE&I services conducted. He assisted in permitting, construction plans, as well as all construction phase services.

Scheduling and Cost Estimating: As a general contractor for over 35 years Mr. Haskins is an excellent resource to manage multiple design projects from planning through final construction. Gene Haskins makes projects happen and keeps the engineering team focused on the clients priorities.
